

Features

Various temperature characteristics cover a wide range in small size.
Mounted either by flow or reflow soldering methods
Excellent dielectric strength due to uniform structure of dielectric layers

Applications

MLCC are becoming increasingly important key electronic applications, which are helpful in reducing the size of electronic circuitry. MLCC are used extensively in computers, communicative products, and the detail applications which including the followings:

- Discharge of Stored Energy
- Blockage of Direct Current
- Coupling of Circuit Components
- By-Passing of an AC Signal
